PROFILE

Experienced full-stack web developer with a strong background in advanced web development. Proficient in designing, developing, and maintaining dynamic websites using modern frameworks and tools. Skilled in both frontend and backend technologies, including **JavaScript**, **Python**, and **Django** for backend development, as well as **HTML**, **CSS**, and **React.js** for frontend interfaces. Adept at UI/UX optimization, testing, and debugging processes. Capable of managing independent projects efficiently while excelling in collaborative team environments. Passionate about building scalable and high-performance web applications.

EMPLOYMENT HISTORY

Junior Web Developer, Boursi Sho

Yazd

Sep 2023 — Nov 2023

- Provided effective troubleshooting and remediation for web applications.
- Worked well independently and within a team setting.
- Utilized Vue.js to create a dynamic and interactive user interface, resulting in an increase in user engagement.
- Implemented a REST API using Node.js that allowed for efficient data exchange between the web application and the backend database.
- Developed a search and suggestion tool for words and phrases.

Mid-Level Laravel Developer , ArvinArad

Yazd

Dec 2023 — Mar 2024

- Developed and maintained full-stack web applications using PHP and Laravel, enhancing factory accounting and inventory management processes.
- Utilized Laravel's Eloquent ORM to efficiently store, retrieve, and manage data in a MySQL database.
- Implemented secure authentication and authorization systems using Laravel's built-in security features and industry-standard protocols.
- Optimized application performance and user experience through efficient database queries, caching strategies, and responsive UI design.

Web Application Support, Sahim Co.

Yazd

Apr 2024 — Jul 2024

- Provided technical support and maintenance for the **YazdeMan** software, an integrated ticketing system for amusement parks and city buses in Yazd Municipality.
- Identified and resolved system bugs, improving the stability and reliability of the web-based application.
- Optimized application performance and enhanced system responsiveness in the **React-based** frontend.
- Assisted in debugging and troubleshooting issues to ensure seamless user experience and operational efficiency.

Founder & Online Services Provider

Yazd

Aug 2024 — Feb 2025

- Established and managed an internet services office in Yazd, offering online service assistance and digital solutions.
- Provided internet-related services, including user requests and registrations for government and non-government platforms.
- Designed and developed websites and web applications for businesses, tailoring solutions to their needs.
- Assisted clients with technical support and consulting on online presence and digital transformation.

Mid-Level Django Developer, Zar.Gold

Yazd

Nov 2024 — Jan 2025

- Designed and developed a highly secure accounting system with role-based access control, enabling seamless user authentication via OTP-based mobile login.
- Built and optimized a scalable RESTful API using **Django REST Framework (DRF)** to facilitate secure and efficient communication between multiple services.
- Implemented a NoSQL database architecture with **MongoDB**, enhancing data retrieval performance and scalability for the e-commerce platform.
- Developed customized admin panels for storekeepers, managers, employees, and vendors, ensuring tailored access control and efficient workflow management.
- Enhanced system security by implementing advanced authentication and authorization mechanisms, protecting sensitive user and financial data.
